

FRÉDERIK
ROIJÉ

CATALOGUE
2022

ABOUT

Frederik Roijé, as an international design studio, designs products for diverse companies and manufacturers.

Besides working for clients, we create our own collection of furniture which we sell and distribute worldwide under the name Frederik Roijé. The collection consists out of furniture, lighting and accessories.

“For me, designing is smart thinking that results in a physical product: a fusion of quality, ability and beauty. A product that serves you and enlightens your environment.”

The starting point for a design is a personal discovery and fascination. A story, shape, material or production technique.

This brings original concepts for new product designs.

Frederik Roijé is known for minimalistic and clean lines, keeping the essence of the concept in the foreground.

Creating design with smart solutions, combining traditional and new techniques; a product for serial production arises.

Frederik Roijé is committed to responsible manufacturing processes that do not harm humans or the environment. Due to the efficient use of resources and materials, the products are of high quality and affordable.

Everyday products with its own personal story arose from the passion and joy of creating a special environment and experience.

Frederik Roijé collection is successful and growing.
